# Campbell Farms Is A Family Proposition

The original Campbell herd foundation was purchased in 1920 by my father, Duncan Campbell. The twenty-seven females in that foundation draft cost \$2700. While a few of their descendants remain in the herd today, upon my entry into the service it was necessary to sell nearly all of the herd. Following World War II we embarked upon a program of making available to North American breeders the very best produced by master breeders in the home of the breed, the British Isles.

Duncan Campbell, right, shows his brother Douglas his certificate for grand champion steer over all breed's Kings Guineas division at the 1951 Royal Winter Fair, Canada's greatest livestock show.

This sale differs from all others. First, all the entries are imported with the exception of several that have calved here at Campbell Farms by imported sires and out of imported dams. Secondly, the record that Campbell sale customers have made selling the calves at foot and in dam for as much and often much more than the cost of the original outfit is unparalleled. This is not difficult to understand when one considers that the breeding of the sale entries and the service sires not only makes for a highly marketable pedigree for the resultant calf, but this background provides the Campbell Farms customer with the greatest assurance that the calf will be the kind of individual that can bring a premium price.

It doesn't take long to make back the cost of a Campbell Farms female through the premium price the calf she is carrying will command. In this way you can own the kind of cattle you have always wanted. The bulls are the best we have ever sold, and each should head a top herd. We are looking forward to your visit.

## "How Well They Do" . . . Is What Counts

At the 1950 Campbell Farms Sale W. A. Culbert & Sons, Dungannon, Ontario paid \$5000 for four bred heifers. One of them dropped the grand young bull, Millhills Festival now in service there, for which a bid of \$3000 was refused. Another calved the Regional Junior Champion bull that they sold to J. N. Shopland of Alberta at \$2000. In addition they have eight heifers from these in the herd and the original four females were only four years old last April.

\* \* \*

In the 1952 sale W. H. Merry purchased a daughter of Calrossie Contribution with a Cruggleton Balmoral bull calf at foot for \$2300. Six months later he sold the calf, Chapelton Burvie, for \$2000 to W. J. Russell for use as a stock bull at Klaymor Farms.

Cromleybank Legionnaire, above, was purchased in our 1951 sale by Claymore Farms, Callender, Iowa. He was an unfitted calf at that time. Here is a recent picture. How do you like the way he developed?

Camson Prince Bob topped the 1951 Sale of Stars going to Femco Farms, Breckenridge, Minnesota. He and Camson Good News are their senior stock bulls.

## LIKE IN OTHER YEARS THE 1953 CAMPBELL OFFERING IS FILLED TO THE BRIM

The \$10,000 Red Lady's Conqueror was by a Campbell Farms imported sire.

In our 1952 sale Massey-Harris Farm purchased Orchard Luxury 21st by Dacre First Command for \$2000. She had a heifer calf at foot by Calrossie Cock Robin. Shown above is Orchard Luxury 21st as she looked ten months later. Her 1952 calf is shown at left and her 1953 calf also by Calrossie Cock Robin is shown at right . . . an average price of \$666 for the three. Is there any reason not to own the best?

Ontario, grand champion bull, Loamart Bolido was imported-in-dam by us. The senior champion female for Colonel Beardmore, Mono Mills, Ontario, was Briardale Cluny Pauline imported-in-dam by Campbell Farms. The junior champion bull, Camson Cock Robin 12th was bred and exhibited by us. The second top female of the Sale of Stars, McLean Farms Lavender was sired by Calrossie Cock Robin out of a heifer bought from us. This female was sold by Wm. McLean & Sons, Kerrwood, Ontario. The second prize mature female Calrossie Rocath Rosewood exhibited by Colonel Beardmore was imported by Campbell Farms. The third prize junior yearling female, Bapton Golden Gertie, exhibited by W. H. Merry, Oakville, Ontario, was purchased in dam from us. Camson Better News, one of the most popular bulls at the 1952 International, was purchased by Femco Farms from us and is now one of two Campbell Farms' bulls heading that great herd.

\* \* \*

Scofield Ranch, Austin, Texas, has held record breaking sales for the past two years. Many of their top selling cattle were sired by

Uppermill Conqueror, purchased by the Scofields from Campbell Farms. Uppermill Conqueror is the sire of the \$10,000 Red Lady's Conqueror.

\* \* \*

In the 1949 International sale, Campbell Farms sold a young imported Bantaskin heifer by Bapton Compensation to Kenneth Kettenhofen, Elkhorn, Wisconsin for \$1,400. The first calf from this heifer was Westmere Compensation, sold by Mr. Kettenhofen to Marellbar Farms for \$5,000.

## WITH CALVES AT FOOT AND IN DAM THAT CAN MORE THAN PAY THE BILL

In our 1951 sale Mr. and Mrs. Chas. Butland, Union Grove, Wisconsin bought Cromleybank Princess Royal 11th with a two-week-old calf at foot sired by Cruggleton Prince Bob. They paid \$1,375 for the pair. This year the Butlands sold the calf at nine months in the Marellbar Invitational for \$3,500 to Edellyn Farms.

\* \* \*

In our 1952 sale James McLean, Black Belt Farm, Snowdoun, Alabama, bought a cow with a month old Calrossie Cock Robin calf at foot for \$975. They are keeping the calf as a junior herd sire and have refused an offer of \$1000 for the bull calf.

Chapelton Burvie. Purchased at foot with his dam in the 1952 sale by W. H. Merry and sold for \$2000 this spring to Klaymor Farms.

The 1952 Royal Winter Fair grand champion bull, Loamart Bolido. Exhibited by J. A. Goetz, Mildmay, Ontario who purchased him in dam from us.

This is Camson Better News purchased from Campbell Farms by George Cox, Femco Farms, Breckenridge, Minnesota. Third prize junior yearling 1952 International.

# Guarantee

1. Proper care should be given by purchaser to protect breeding qualities and health of animals. Any cattle in this sale that are fitted for exhibition purposes by their new owners are excluded from the following guarantee.

2. All bulls are guaranteed breeders. If bull when sold is 14 months of age or over and fails to breed, he must be reported within 6 months. If under 14 months of age when sold and fails to be a breeder, he must be reported at the time he attains the age of 20 months. A bull shall not be allowed to serve when under 14 months of age or be allowed to run with the herd when under 20 months of age.

3. Cows sold with calves by side are considered proven breeders. All other cows and heifers sold as a single lot are guaranteed breeders, except calves sold by side of dam as one lot and heifers under sixteen months of age at time of sale. Heifers shall not be served for first calf by heavy or old bull. Cows and heifers over three months gone in calf, according to service date furnished at time of sale, but not proving in calf, must be reported to seller within three months from date of sale; all others served within three months of date of sale not proving in calf or not settled must be reported within six months. Heifers not settled when twenty-two months of age shall be promptly reported. Heifers over sixteen months of age sold open, not settling within six months of date of sale, shall be promptly reported.

4. Any animal not proving up to foregoing guarantee shall be replaced with another of equal value at the time of purchase to the satisfaction of the purchaser, or the purchase price will be refunded at the seller's option, but the seller may, if he desires, have the animal returned for retrial after a period not to exceed six months. The expense of return freight in such case is to be paid by the seller. If the animal is proved to be a breeder beyond doubt, it shall be returned to the purchaser at his expense. In case the animal proves to be not a breeder, then the purchaser shall be given the option of having purchase price refunded without interest or of accepting a substitute as stipulated above. Salvage to go to the seller. No charge for feed or maintenance shall be made by either buyer or seller.

5. A certificate of registry in the Canadian Shorthorn Herd Book will be furnished with each animal. Any animal in this sale can be registered in the American Shorthorn Breeders' Herd Book.

## how do I get there . . . ?

Campbell Farms is easy to reach. It will be merely an overnight trip by train each way for midwestern and eastern breeders. For example from Chicago take the Canadian Pacific (New York Central Station) leaving Chicago at 7:35 p.m. C.S.T. This arrives in Moffat (change Guelph Junction) at 7:30 a.m. You can get a train back in the evening that will arrive in Chicago at 8:10 a.m. Schedule from eastern cities to Toronto similar. We will be glad to meet you in Toronto if advance notice is given.

The main Toronto airport (Malton) is 35 miles from the farm and upon request we will meet you there. Toronto is a two hour flight from Chicago with several daily flights. Those wishing to hurry home after the C.N.E. judging could make the 2:55 p.m. flight arriving in Chicago at 4:25.

There is no more beautiful time of the year to drive. Should you care to do some sightseeing remember that Niagara Falls is only 90 miles from the farm.

## how do I get 'em home?

Of great concern to buyers at any sale is the cost of getting cattle home. This depends largely upon the attitude of the seller in keeping cattle until combination shipments can be made. Campbell Farms has the reputation of cooperating 100% in this matter. Cattle sold to go to Western Canada and the Maritimes can be held at the farm free of charge until the Royal Winter Fair when shipment can be arranged with fair exhibitors. Cattle will also be held free of charge for pool shipments from the annual October sales of Messrs. Russell, Gray, Law, Beath, Deacon, and Murphy.

## WE URGE YOU TO VISIT OUR NEIGHBORS

Sunday, August 31, the day between our sale and the Canadian National Exhibition judging will be an excellent time to do some Shorthorn visiting. You can see more famous herds in a shorter time in the Toronto area than anywhere else. If you have your own car you can plan your own itinerary or we can help you. If you do not have an automobile please drop us a line and we'll be glad to have transportation available for you. As always, the welcome mat will be out in the Toronto-area Shorthorn herds.

CALROSSIE ROYAL ROSE-  
MARY (275183)  
(Red Roan)

Calrossie Cock Robin, withdrawn from the Perth sale as a stock bull at Calrossie, was imported in December 1949 for use at Campbell Farms. His sire, Kirkton Baronet, needs no introduction. The new dynasty he has built in Shorthorns the world over is known to all. The dam of Calrossie Cock Robin is described by Captain MacGillivray as the perfect type of female, typical of her sire, Calrossie Randolph. It is interesting to note that Captain MacGillivray particularly favors this family for a retention of herd bulls. As to the individuality of Calrossie Cock Robin, it is sufficient to say that many of the shrewdest cattle judges have gone away from Campbell Farms to tell their friends that in Calrossie Cock Robin we have a bull that can do great things for the Shorthorn breed in Canada and the United States. He stamps great heads, rugged bone, substance, fleshing and quality on every calf. The first sons went into service about a year ago and soon we will be able to offer evidence of their ability to create a new Shorthorn dynasty. We have continued to refuse attractive five figure offers for Calrossie Cock Robin. He will stay at Campbell Farms until he dies. About a dozen calves will sell at foot by him and 24 females will be bred to him.

---

**There are no daughters of Calrossie Cock Robin  
in this sale. We will not compromise our policy  
to keep all of his heifers. The only way to obtain  
Calrossie Cock Robin daughters is to buy females  
in the Campbell Sale bred to him. Twenty-four  
imported females sell bred to Calrossie Cock  
Robin. On display sale day will be a beautiful  
group of yearling daughters being retained.**

Camson Cock Robin 2nd—Sold to Herman Cirksena, Parkersburg, Iowa for \$2,000 in the 1951 International sale.

Camson Cock Robin 7th—This stylish bull now heads the good herd of Kermit Hamaker and Sons, Marshall, Michigan.

## Sons of Calrossie Cock Robin

Last year saw the first sons of Calrossie Cock Robin go into service. As an individual we doubt if there are any more impressive. As a sire he stamps substance, quality, fleshing, and great heads into every calf. We predict that this will be the beginning of a new Shorthorn dynasty.

There are no sons in the sale as separate lots. There are many bull calves by him at foot in the sale with their dams. Selling them that way this year and last is the reason for our shortage of serviceable age bulls by him. Buy a cow with calf at foot or right up to calving and raise your next herd bull.

This is the bull that we have picked to assist Calrossie Cock Robin. His sire is also by Kirkton Baronet. Kirkton Grandee is the bull selected by Jean MacGillivray to carry on the Kirkton Baronet line developed by her father and uncle. Kirkton Grandee is the sire of Kirkton Grand Alliance sold in our 1952 sale to W. H. Merry, Oakville, Ontario for \$4000. The dam's pedigree is most interesting. On one side she traces to Cruggleton Prince Bob and Naemoor Marshal. The dam, Golden Fatima, was one of the highest priced females in the Kirkton Dispersion. The third dam, Golden Aster is a full sister to Kirkton Baronet.

What will you see at Campbell Farms? First, you'll see a great white bull that, I believe, will rank someday with the all time best sires of the breed. Most of the females in the sale will not be "show fat". They will not be thin . . . Grant Campbell is too good a cattleman for that . . . but a large percentage will either have calves at foot or be right up to calving. These are offered in just healthy condition. Eight others will have arrived from the Quebec quarantine station only two weeks before the sale, and while they have been under the care of an expert cattleman from the time they left the British Isles they will not have the show bloom of a heifer that has been pushed from the day she was dropped. All this works to the buyer's advantage.

Selecting and buying cattle in the old country is a gamble the untrained should not attempt. There are too many hazards. No one is better equipped for the job than Grant Campbell. The 1950, 1951, and 1952 offerings were all splendid. Each was better than the previous one. Part of the reason was because it was only natural for Grant to be willing to stake a greater capital investment on the next sale after the public had displayed its willingness to buy quality. I happen to know that following last year's most successful sale he made up his mind to put together a 1953 offering that would never be forgotten . . . that would add more good will to an already long list of satisfied customers.

It makes a difference from whom you buy. Grant Campbell has sold scores of cattle in the last three years. There have been few breeding troubles. Whenever such cases arose they were settled promptly to the complete satisfaction of the buyer.

## **RANKEILOUR BARONET**

Rankeilour Baronet, sells as Lot 1—The best testimonial that we can offer for this outstanding son of Calrossie Welcome is the fact that following the purchase and during the long delay in shipment, Captain Robert Maclean of Drynie, requested that we loan him this bull. We were quite happy to do so because it is generally known that the Drynie herd is one of Scotland's greatest and it is quite probable that the new owner of Rankeilour Baronet will receive considerable publicity through the exhibition and sale of his get by Drynie. He was used heavily in the Drynie herd. Breeders such as Captain Maclean do not use bulls unless they are confident of their maternal background. Study the beautiful Calrossie maternal side noting that Calrossie Cupbearer was the sire of 11 bulls that sold at Perth in 1950 for an average of \$6,325 and 15 females that sold for an average of \$2,450 in the last Calrossie sale. Calrossie Welcome needs no introduction. He was reserve senior champion at Perth and supreme champion at the 1949 Royal Highland and Royal English shows and supreme champion at the 1951 Highland. His bull calves in the 1952 Perth sale sold for an all-time high average of 7,525 gns., and included the supreme champion, Calrossie Prefect that went to S. G. Bennett, Georgetown, Ontario; the 7900 gn. Calrossie Armada that went to Louis Cadesky, Peterborough, Ontario; the 10,000 gn. Calrossie Highland Piper that sold to A. R. Cross, Alberta; the 4,200 gn. Calrossie Emblem that went to Richardson Stock Farms, Winnipeg, Manitoba; and the 3,600 gn. Calrossie Welfare that went to Claude Gallinger, Edmonton, Alberta. Calrossie Augusta Marina is one of the best Cupbearer daughters and this family has produced many top bulls including the 1947 Perth supreme champion.

**Kirkton Junior**—Is a bull that will bring his new owner into immediate prominence. He is a full brother to Kirkton Great Expectations, the stock bull that has done so well for Roy Watherston at Crichton. North American breeders will remember a son of Kirkton Great Expectations that sold for \$2,500 and a daughter that sold for \$2,100 in the 1952 Aberfeldy sale. Besides producing Kirkton Great Expectations, the dam, Calrossie Ramsden Miranda, produced heifers that sold in the Kirkton dispersion for 800 gns. and 770 gns. Kirkton Junior is the last available son of Kirkton Baronet. Because of our Kirkton Baronet program and Kirkton Junior's beautiful pedigree on the female side, we had planned to keep this bull for our own use. However, it takes bulls of this caliber to make sale headliners. Rarely do breeders have an opportunity to buy full brothers of outstanding stock bulls in Scotland.

Banchory Jupiter—Many will pick this as the top prospect to come to Canada this year. We have great confidence in Bapton Eldorado breeding and in the Banchory herd. Bapton Eldorado is one of the thickest and deepest stock bulls in Scotland. His get show tremendous bone and substance. Hugh Black of Banchory used Banchory Jupiter heavily while awaiting shipment and it was his plan to fit him for the Royal Highland show this year if he had remained in Scotland until show time. Balthayock Atlas is by the Perth champion, Cluny Brave Command. He was a high selling bull in the Argentine where he has proved to be a great breeder.

BAPTON AIR CONTROL. Sire, Calrossie Air Control by Calrossie Control out of Calrossie Clipper 2nd. Dam, Bapton Augusta 6th by Bapton Merry Lad.

Camson Dazzler—Here is a bull that will catch your eye immediately. He is sired by Calrossie Dazzler, sire of the 1950 International grand champion female used in the Campbell herd and sold for \$5,125 in our 1951 sale to S. K. Berry, of Saskatchewan. Camson Dazzler is a stylish, easy feeding, good headed bull out of a wonderful cow. We call your particular attention to the beautiful Bapton pedigree. The bulls that have made Bapton are all wrapped up in this fellow. All who have been to Scotland agree that the Bapton herd is one of the very best and that their Jilt family is tops. Camson Dazzler has all of the great qualities of the Bapton cattle with the Kirkton Baronet head.

Drumbeg Royal Cupbearer—Was the reserve supreme champion at the Royal Dublin show last March. Here is a two-year-old bull with a wealth of breed character, combining the best Calrossie and Glastullich breeding. His sire, Anticur Royal Stamp (see picture above Lot 40) was champion at Belfast in 1950 and 1951, and reserve supreme champion at Dublin in 1951. The late A. J. Marshall tried many times to buy Anticur Royal Stamp to use as a stock bull at Cruggleton. Calrossie Cupbearer is the sire of 11 bulls that sold at Perth in 1950 for an average of \$6,325. Glastullich Fortress is the sire of the 1947 Perth champion, Glastullich Smasher, and champion groups. He is also the sire of the 1948 Royal show supreme champion. Glastullich Augusta Pet is a full sister to Glastullich Pay Day that was used so successfully at Bapton. Here is a bull that is bred to breed on and an individual that will appeal to the most critical.

Tolquhon Dazzler—Think of the job this line bred Kirkton Baronet bull can do on an outcross. He should stamp his uniform quality into a herd. He is sired by Calrossie Dazzler, the bull we sold at four years of age for \$5,125 in our 1951 sale to S. K. Berry. Calrossie Dazzler sired the 1950 grand champion female, Tolquhon Dazzling Princess. A full sister to Calrossie Augusta Sheen is Calrossie Augusta Aileen which sold in the Calrossie draft sale for 1,500 gns. to Louada Manor Farms. This line of Augustas have been great breeders at Calrossie.

Tolquhon Watermark—Is a stylish bull combining the best breeding of Calrossie & Cruggleton. Through this bull you can put both Kirkton Baronet and Cruggleton Perfect into your breeding program. Tolquhon Watermark was used in Scotland while awaiting shipment and is a sure breeder.

**Belgard Golden Woodpecker**—Is a son of Prumplestown Golden Miller, one of the most respected stock bulls in the British Isles. At seven years of age and for the third time, he won the supreme championship at the Royal Dublin show in May of this year. Note that the dam is a member of the highly regarded Prumplestown Butterfly family. Belgard Golden Woodpecker is the answer for the breeder who demands thick flesh, depth and substance. He placed first in class at Dublin in March.

Prumplestown Glorious—The youngest bull in the sale but certainly one of the top prospects. He is sired by Cruggleton Bennie, one of the most popular bulls in the 1951 Perth sale and a three-quarter brother to Cruggleton Guthrie, recently purchased to head the Edellyn herd. Note that he is out of a daughter of Clanmurray Onward that did so much for the Prumplestown herd. Grandsons of Cruggleton Braemar are doing a great job. This particular A. J. Marshall line, through Cruggleton Bennie, could easily work the most lasting influence of any developed by A. J. Marshall.

Clipper Forget-me-not—Without a doubt in Clipper Forget-me-not we are selling one of the most valuable breeding females ever to be put through an auction sale . . . and this statement is not limited to North America. She was one of the high selling females in the Kirkton dispersion in October 1951. Last year in our sale, her son Kirkton Grand Alliance, sold at eight months of age to W. H. Merry, Oakville, Ontario for \$4,000. This bull has developed to everyone's highest expectations and Merrybrook is ready to tie the future of their excellent herd to him. Why are we selling such a cow? Simply because we are retaining a beautiful red roan daughter sired by Calrossie Cock Robin. We intend to spread this family throughout our herd and believe that the new owner of Clipper Forget-me-not will never sell a daughter and will retain her sons for herd use. The sale of two daughters of Kirkton Baronet, lots 11 and 12, offer possibly the last opportunity to purchase his daughters. We are particularly partial to this one because she is a three-quarter sister to our herd bull, Calrossie Cock Robin and we feel that the Kirkton Baronet-Calrossie Randolph cross approaches the perfect nick. **She was bred to Calrossie Cock Robin May 15** and the resulting calf will have Kirkton Baronet-Calrossie Randolph cross on both sides of its pedigree. Be sure to see the heifer that is being retained by Calrossie Cock Robin and out of this cow.

Augusta Adella—Not only is she one of the last daughters of Kirkton Baronet ever offered at public auction but she is a full sister to two great stock bulls, Kirkton Elite in Australia and Kirkton Dauntless in the Argentine. At ten years of age her dam, Augusta Allison, was sold at a very high price in the Kirkton dispersion. The buyer was her breeder, Major Henderson of Lawton. Augusta Adella is a line bred Lawton Field Marshall with the richest blood of Calrossie and Glastullich mixed in. An outstanding bull calf out of Augusta Adella is being retained in the Campbell Farms herd. **She sells mated to Calrossie Cock Robin on January 1.**

Princess Rosemary—Here is one for the breeder who recognizes the importance of adding female replacements that trace on their dam's side directly to mothers of great bulls. Princess Rosie, the dam, is by the same sire as Calrossie Coch Robin and is out of his granddam. She is also a maternal sister to Calrossie Triumph that sold for a high price in the Argentine and has since proved to be a great sire. Calrossie Princess Diana is the dam of Calrossie Jolly Tar and to add more flavor to the mixture, Calrossie Princess Mona was the dam of two Perth Champions, Calrossie Control and Calrossie Prince Peter. Phopachy Great Event was sold privately to Captain de Quincey for use in the Erimus herd. Kirkton Eventide is a maternal brother to Kirkton Challenger, the great breeding son of Kirkton Baronet that is doing so well for Captain de Quincey. People who own such females simply do not part with them. That is what makes this sale different from all others. **Bred to Kirkton Junior.**

Naemoor Cinderella Plack—When breeders see females such as this one offered, they are apt to think that we are dispersing. This is not true. It has always been our plan to buy the very best for use in the Campbell herd and to sell each year some of these tops after we have been able to retain females from them. She is listed in this sale only because we have in our herd an outstanding daughter of her mother, and her own daughter, also retained, is possibly the best calf to date by Calrossie Cock Robin. We bred her back to Calrossie Cock Robin on January 14. Here is something else. Naemoor Cinderella Plack is the dam of Naemoor Cinderella 3rd, grand champion female of the 1949 Royal Winter Fair and later sold to Kenneth Kettenhofen, Elkhorn, Wisconsin. One of the best producing cows in the Gallinger herd is a full sister and one of the top cows in the Louada Manor herd is also a full sister.

KIRTON FORMULA (368475). Sire, Naemoor Marshal (345049) by Cruggleton Prince Bob (328406) out of Naemoor Buttercup 2nd. Dam, Rothes Queen Celandine by Lawton Field Marshal (314137).

CALROSSIE DEFENCE (335891). Sire, Calrossie Randolph (275440) by Calrossie Grand National (268893) out of Calrossie Miss Rosebud. Dam, Calrossie Princess Rosalind by Lawton President Roosevelt (308482).

ROYAL SENSATION (297374). Sire, Aldie Premium (267919) by Calrossie Lord Chancellor (249381) out of Augusta Maid. Dam, Broadhooks Princess by Naemoor Jasper (217761).

Easterlovat Lulu—Is the dam of two beautiful heifers both of which are being retained for the breeding herd at Campbell Farms. Kirkton Formula is a full brother to Kirkton Envoy, stock bull at Lawton, who was the sire of Lawton Nelson and sold for 6,000 gns. at Perth later to become the 1952 supreme champion at Palermo, the greatest show in the Argentine. In 1952 bull calves by Kirkton Formula averaged \$5,800 at Perth with the top of \$9,000 going to head the Saltoun herd. He is also the sire of Easterlovat Highland Laddie, recently imported by Glenburn Farms, Unionville, Ontario. **Easterlovat Lulu sells bred to Kirkton Golden Star.**

MORPHIE

Montrose, June 10, 1953

Dear Mr. Campbell:

Enclosed is the pedigree of your cow and calf. The cow is very thin, being the mother of the bull, Morphie Campbell, sold at Perth, 1953, for 590 gns. to the Argentine after being sixth in class. She was kept in milk too long and had not time to make up before calving.

Her dam, Morphie Princess Rosa, was first in her class at Fettercain as a yearling, the only time shown. Bapton Commando needs no comment to you. Drynie Princess Royal 18th is about the best cow in the herd, very deep.

The calf was born March 27 and we have named her, Morphie Princess Lucy. She is by Morphie Beau Geste, making her a full sister to Morphie Campbell. Morphie Beau Geste was fourth at the Highland and is the best bull I have ever retained for my own use and will keep him in spite of an offer of 3,000 gns.

Morphie Princess Royal 4th is the dam of Morphie Prig, sold in the Argentine, 1952 for 3905 pounds. Beaufort Bolido needs no comment.

I wish you the best of luck at your sale. We are having the worst June weather I have ever seen, cold and wet.

Yours faithfully,  
W. L. ANDERSON

Morphie Princess Madam—How many times in the next ten years do you suppose you will have an opportunity to buy a daughter of Bapton Commando especially one with a beautiful Drynie Princess Royal background? This cow was purchased with this sale in mind and, for fear that we would change our minds, we never allowed ourselves to think of keeping her in the herd. Sells with a beautiful red heifer calf at foot born March 27 and sired by Morphie Beau Geste and bred to Kirkton Junior. We shall not elaborate on this pedigree since the letter from W. L. Anderson speaks for itself.

BAPTON UPRIGHT (316211). Sire, Bapton Air Pilot (298495) by Bapton Air Control (285606) out of Bapton Broadhooks 6th. Dam, Bapton Actress 3rd by Calrossie Air Control (268880).

PITTODRIE JUBILEE (279002). Sire, Calrossie Royal Archer (268900) by Glastullich Waverley (237381) out of Calrossie Ruby Ramsden. Dam, Calrossie Rosewood Kate by Collynie Royal Leader (188656).

Mortlach Goldie—How would you like to own a three-quarter sister to two of the best breeding bulls in Canada. Mortlach Goldie is a three-quarter sister to Pittodrie Fortune and Pittodrie Hero that head the herds of T. G. Hamilton, Innisfail, Alberta and T. C. Amos, Moffat, Ontario. Mortlach Goldie is also a half sister to the 1950 Perth junior champion and **sells in calf to Calrossie Cock Robin since December 21.**

The listing of the following eleven young females from one of the oldest and most respected herds in the British Isles presents a rare opportunity for a breeder to secure the nucleus of a breeding herd which is the result of the efforts of the Wrights of Prumplestow House working with the best stock bulls available for the past 70 years.

Prumplestow females are proving themselves in the top breeding herds of Mr. S. G. Bennett of Georgetown, Ontario and Col. Torrance Beardmore of Mono Mills, Ontario. Some of the best breeding cows in the Campbell Farms Herd were bred at Prumplestow.

Mr. Fred Wright of Prumplestow House is a breeder whose judgement of the breed is respected and who has that natural ability that makes for the best Shorthorns.

**Cruggleton Braemar.** One of the greatest bulls of all-time in Scotland. Cruggleton Bennie sire of six heifers in this sale is regarded as one of his very best sons. Here is your chance to put potent Cruggleton Braemar blood to work in your herd.

Prumplestown Butterfly 70th—Is one of the top heifers in this sale. Her sire, Cruggleton Bennie, one of the most popular bulls in the 1951 Perth sale, is possibly the best bull to carry on the potent Cruggleton Braemar line. Cruggleton Bennie is a three-quarter brother to Cruggleton Guthrie, the Edellyn herd bull. Prumplestown Butterfly 70th will be bred before sale day to Calrossie Cock Robin.

Prumplestown Orange Blossom 8th—A beautifully bred Wright heifer sired by Prumplestown Golden Mint, first prize winner at the Royal Dublin show, later exported to the Argentine. He is a full brother to Prumplestown Golden Miller. This attractive heifer sells bred to Kirkton Golden Star and will make a wonderful foundation or replacement female for some top herd.

Her dam, Prumplestown Goldie 46th was the reserve champion female and one of the group winning pair of heifers at the 1951 Royal Dublin show. Prumplestown Goldie 43rd, the granddam, is a full sister to the good sire, Prumplestown Golden Miller. Prumplestown Goldie 19th was a first prize winner at the Royal Dublin show. Every animal in this pedigree has been an outstanding individual and top producer. **Bred to Calrossie Cock Robin.**

Prumplestown Goldie 54th—What do we think of these Prumplestown females at Campbell Farms? We know what they have done in the Bennett and Beardmore herds and a maternal sister to this one is considered one of the most valued cows at Campbell Farms. A cross of Cruggleton Bennie by Cruggleton Braemar to make the mixture even richer. **Bred to Calrossie Cock Robin.**

We would like to see these Cruggleton Wayne heifers stay together. **Sells bred to Calrossie Cock Robin.**

Prumplestown Gypsy 13th—Some progressive breeder should buy all five of these Cruggleton Bennie heifers. They are similarly bred on the dam's side and all represent several generations in the good Prumplestown herd.

Prumplestown Kora 48th—Is from one of the oldest families in the Shorthorn herd book and is sired by Cruggleton Wayne, the good breeding son of Cruggleton Assheton. Clanmurray Onward that appears in many of the Wright pedigrees has been a great breeding bull and has sired many Dublin and Belfast champions including Prumplestown Golden Miller, three times champion at the Royal Dublin show. Calrossie Royal Sovereign was a second prize winner at Perth and sired the champion, Prumplestown Rover, a record breaking sire in the Argentine whose first crop of bull calves won four first prizes and the two-year-old junior and supreme championships for Senor Santamarine at Palermo. This heifer was bred April 24 to Banchory Keynote.

Prumplestown Kora 49th—Another from this great old Wright family. A full sister to the dam of this heifer is one of our most valuable breeding females. Millhills Woodman was the 1940 Perth reserve champion. The granddam, Prumplestown Kora 32nd, was a first prize yearling in 1943 and in 1947 she won the cow class at Dublin. Her first bull calf was a stock bull for Major Powell in the Argentine and has sired many prize winners at Palermo. **Bred to Calrossie Cock Robin.**

Drumbeg Flossie Nan—Here is one that you can travel many miles to see. The sale of this good heifer presents a rare opportunity for some breeder to secure a member of the famous Calrossie Floss family. Note that her dam is sired by Glastullich Fortress, sire of the 1947 Perth champion, Glastullich Smasher and of the 1948 Royal show supreme champion. Anticur Royal Stamp is a bull of ideal type and a consistent winner of championships at major Old Country shows. You will agree from the calves we are selling that he stamps his quality upon each one. **Bred to Kirkton Golden Star.**

Belgard Broadhooks Bridesmaid 5th—Is almost a full sister to lot 43. Both of these heifers should go to the same breeder. They are as alike as their breeding would indicate. Both will be sold safely in calf to Calrossie Cock Robin. We are not the least bit hesitant in stating that Prumplestown Golden Miller is one of the top three bulls in the British Isles. He has never been beaten in the show ring. **Bred to Calrossie Cock Robin.**

**Calrossie Cock Robin**

The next five heifers are from the Wrights of Kilkea. They are as alike as peas in a pod, and should all be owned in one herd. They will all be sold in calf to Calrossie Cock Robin. Note the bulls in these pedigrees.

Kilkea Princess 3rd—It can be seen from this pedigree that when top Scottish breeders were seeking herd bulls they traveled to Ireland. This is generally known in Scotland, but not publicized. This Wright heifer comes from an old Wright Princess Royal family that has been very dependable. The sire, Millhills Fairy Ark, was bred by Duncan Stewart and was sired by a Wright bull. Notice the good heads, balance and symmetry of these heifers. What wonderful calves they should have! **Bred to Calrossie Cock Robin.**

*A Message  
To All  
Polled Shorthorn  
Breeders*

## The Bell-Rock Cattle Co. Ocala, Florida

The Bell Rock Cattle Company, Ocala, Florida, is a project in which Campbell Farms is vitally interested. We are in partnership with Ed Rockefeller who now resides in Ocala on the farm. He is well known to the Shorthorn fraternity, having served as a breeder, fieldman, and herd manager. He is now active in promoting the interests of the breed in Florida, one of the greatest potential areas for Shorthorn expansion.

The program at Bell Rock is twofold. We are building a top-notch permanent cow herd, while at the same time making available to Florida breeders and ranchers the finest Shorthorn seed stock. We have already held our first sale which was attended by cattle-men from six states. In co-operation with Kerns Cattle Company, Ocala, and R. G. Heine, Hills of Home Farm, Ocala, we are holding a sale there this fall on October 19.

On Thursday, September 3, Birmingham Farms, Kingston, Ontario, will hold their first sale of their Shorthorn-Polled Shorthorn project. This is an event every breeder interested in Polled Shorthorns will want to attend. We wish to take this opportunity to urge you to stay over and be with us on September 5. Transportation from Birmingham Farms to Campbell Farms will be no problem.

There will be some other good sales during this week also. On Friday, September 4, Dr. Martin W. Stapleton, Seaforth, Ontario, will sell, and at 7 P.M., the evening of our sale, there will be the Charles Smith-Leo Chard dispersions at Hays Pavilion, Oakville.
